Cristkany April 27th 1844

Dear Sir,

At the suggestion of Dr. Kneiskern I have collected a quantity of the living roots of Pyrola uliginosa and of Conio-Selinum canadense, perhaps 20 or 30 of the former and a dozen of the latter. These I have packed in a box with damp Sphagnum and placed in the hands of a merchant of the village who will take them with him to New York next Monday. The box is directed as follows:

These plants I trust will please you. I shall be happy to be of service to you at any time in collecting any plants that you may desire in our section.

Yours Respectfully,
Geo. Vasey
